C. W. Amerpohl, Prop.CANNING SEASON
IS NEARLY OVERMAJORITY OF THE FRUIT IS NOW
OUT OF MARKET.

MANY CROPS ARE SHORT

More Peaches Than Ever Before Were
Put Up by Janesville
Housewives.The busy season for the housewife,
namely the canning season, is nearly
over, as most of the peaches, at least
those for use in canning, are out of
the market and the Bartlett peaches,
which are the best varieties for pres-
erving, are also gone.More peaches were used this year
by the people of Janesville than were
last season and as a good many of
these were put up, canned peaches for
use in sauce and pies will be handy
things for the busy housewife to fall
back on this coming winter.The local grocers report a material
increase in the sales of the fruit this
year over those of last year. A few
of the late varieties are still in the
market, but these will not be used
much for canning purposes.The crop of tomatoes is reported as
being short, in fact almost as short as
the corn crop, and the packing by the
factories will be light. The quality
of those which have been on sale has
been fairly good.Apples, another one of the staples,
which are used at all times of the year
when they are in market, are in good
order this year and they will be plenty-
ful. The prices will range from \$2.50
to \$4 a barrel, according to the varietyThe homegrown potatoes are com-
ing into market at present and quite
a good number are being brought in.
The crop is said to be not as good as
last year, but the quality is excellent.
These will sell for eighty-five cents a
bushel.The lack of rain has had little or
no effect on the growth of onions and a
large supply for this fall and winter
have been raised.The Bartlett peaches which are the
best variety for use in canning are
practically all out of the market. There
is still in the market a kind of
peach known as the Klefer peach, which
is not as good a peach as the Bartlett
for preserving purposes, but is con-
siderably cheaper, selling for about
half the price that the Bartlett peaches
sell for. These are selling for \$1.25
a bushel.Grapes are another fruit which is
quite plentiful, but has risen slightly
in price in the last few days. They
have been selling for twenty cents,
but the price has risen to twenty-five
cents a basket.Squash, pumpkins, carrots and other
late vegetables are in the market, the
amount of cabbages which have been
raised this year being quite large.Evidently the busy bee has not been
leaving during the hot days this sum-
mer, for there is a good supply of honey
and the prices will be quite low.
The price will be about fifteen cents a
pound.COLLEGE AND HIGH

Others with It in St. Paul

Wreck Saturday.

The wreck on the St. Paul road at
Gratiot Saturday is thought to have
been caused by a defective car, as
the train went around to curve the car
slowed off the track, carrying on over-
night others. A car containing five
hundred boxes of stick dynamite
went off the track with the others
but was not tipped over. Considerable
damage was done to several cars of
fruit which were in the train.THIRTEEN SEATED

Defied Superlatives at the Hotel
Myers Last Evening.That the hoodoo number 13 has no
terrors for the guardians of the law
was amply demonstrated last evening
when Sheriff I. U. Fisher and his
twelve guests calmly took their places
at the banquet board in the Hotel Myers
ordinary and proceeded to do full
justice to the feast prepared for them,
without a qualm or even the ghost of
a misgiving. It was a repast that
elicited words of praise for Manager
Squires and when it was over and the
cigars were lighted, the guests in an
informal way expressed their appre-
ciation of the food and their hopes
that his present term as sheriff, how-
ever brief it might be, will be his
last one. Those present were: Chief
of Police George Appleby, Officers
John Brown, William Mason, Thomas

on Friday, October
Ninth.

[SPECIAL TO THE GAZETTE.]

Orfordville, Oct. 5.—A lecture
course of five first-class entertain-
ments has been secured for our vil-
lage this season. The first number, Friday,
Oct. 9, is a lecture entitled
"Talman, a White Savage," by Jos.
K. Griffis. Mr. Griffis was captured
when a child by the Kewa Indians
and had many thrilling experiences.
He tells in a dramatic manner of his
capture by the Indians, his life among
them, his capture by Cutler's band,
his joining the U. S. army, his de-
sertion, his trial by court-martial and
sentence to death, his escape, his
conversion to Christianity, his becoming
a clergyman, author and lecturer.
The other four numbers of the course are
The Old Plantation Quartette, a
negro troupe; H. V. Adams, the noted
lecturer; The Bellharz Entertainers;
and the Bostonians, the troupe.Several from here are expecting to
visit in Madison this week and attend
the Baptist state association.No one should miss the opening
number of the Citizens' lecture course,
to be given in the Baptist church on
Thursday evening. It will be a con-
cert such as none can help but enjoy.C. W. Irish is improving his house
so that it will be a good place to
visit in Madison this week.Mrs. R. W. Cheever has lately been
suffering from a very severe cold.Mrs. Nan Leon has been visiting

soon leave. Clinton will soon have
quite a settlement in that section of
the country.The wife of Jim Raymond, who re-
cently purchased the Super place and
expected to move here in a few days,
died last week.Around the Clinton depot is a busy
place of late. Many cars of hay and
stock and household goods are
being shipped out and train loads of
gravel shipped in for road-building.On Friday evening some twenty of
the faithful gathered at Drake's hall
and formed a Bryan & Kern club,
electing Mayor Dalton as president;
W. F. Christian, vice-president; E.
B. Budlong, secretary, and Fred Led-
ke, treasurer, after which came the
soliciting for finances with which to
run the campaign.Judge H. N. Cronkite was taken
sick in the postoffice this afternoon.The democratic rally Saturday
night was the most successful thing
of the kind that party has had here
for many years. About 200 men
were out to hear the speeches in the
proportion of 175 republicans to 25
democrats. Curiously pure and sim-
ple and the plaintive tunes played
by the Allen Grove band brought the
men out.H. O. Nataea leaves tonight for
Milwaukee for a week's visit.The macadam platform on the C.
& N. W. side of the depot is in very
bad shape and does not speak very
well for that road. It not only looks
very ugly, but is very unpleasant
and even dangerous to walk upon.P. D. Q. Northrop of Beloit was

POLITICS AND BUSINESS

The situation in certain lines of business is incidental to the closing days of a national campaign, noticeable more this year than at any time in the last decade, because recovery from the panic is not yet complete, and capital can not be induced to take many chances.

The republican party is successful, the middle of November will find the business of the country in full swing with confidence largely restored. Should Bryan gain control, conditions will be entirely different, and many enterprises will wait for the development of new and untried policies.

There is nothing which destroys confidence and retards progress so much as uncertainty, and there is nothing more uncertain than Bryanism. Phrasemakers are plausible and captivating to surface-thinking people. The free silver heresy was popular in 1900 and the bank guarantee proposition is popular with the same class of people today, but one is as visionary as the other.

Manufacturers will wait until the contest is over before attempting to push business. It is well for the country that these disturbing campaigns come but once in four years, and it would be better if the time was extended and presidents elected for a single six-year term.

CLERGYMAN FOR TAFT

An unqualified approval of William H. Taft as a presidential candidate was given by Rev. James Coote, D. D., pastor of the Methodist Episcopal church in Thompsonville, Conn., when he called at the headquarters of the republican national committee. For years Dr. Coote has taken a prominent part in Methodist circles in New Haven and in New York, having been a presiding elder and occupied leading pulpits.

"No man has spoken so earnestly in favor of the great work that Christ has missions are doing in the Philippines, in China, and in the orient generally as Mr. Taft," said Dr. Coote.

"In an address at Yale university he emphasized that idea particularly, and on several other occasions he spoke enthusiastically of the good being done by aggressive Christian evangelism in the different countries which he visited. It seems to me that no evangelical Christian should hesitate to support Judge Taft. He is just as big and broad in his religious ideas as he is in his physical proportions. He can be trusted to do what is fair and right with all denominations."

Dr. Hills, another prominent Methodist clergyman, is also supporting Taft. He is known as the "preacher politician," and was a member of the Taft party when the train passed through Janesville, the other day. He was also one of the speakers at Evansville.

The action of Dr. Coote and Dr. Hills indicates that the great church which they represent has some staunch republican advocates, and that the entire energy of its clergymen is not wasted on prohibition, and efforts to defeat "Uncle Joe" Cannon.

The war cloud which hangs over Turkey, threatens the peace of all European nations. Bulgaria seems determined to shake off despotic rule and Turkey with an army never dependable, so far as loyalty is concerned, is in poor condition to contend the right. Financial interests on the part of other nations enter largely into the unpleasantness, and a new alignment may result.

Hearst is making life disagreeable, just now, for Bryan's running mate, Kern of Indiana. The New York editor seems to be loaded with all kinds of ammunition, and he knows how to use it with telling effect. Just how much money his information bureau cost him, will never be known, but he secured a choice collection and knows how to handle it.

Haskell of Bryan fame can find all the lawsuits he wants, without going out of his adopted state. The editor of the Arkansas Morning Democrat challenges Haskell to a suit for libel. This is the man who furnished the evidence against him in the Standard Oil case. If the challenge is not accepted, suit will be brought against Mr. Haskell for slander.

Heart to Heart Talks.

YOUNG HUSBAND, MADAM.
Says a writer who has traveled much: "The American husband is the best husband in the world."

Which is true, as every one who is well informed knows.

There are exceptions, of course. But, all in all, your husband is a type of the best husband extant.

As breadwinner, protector, generous in motive and stanch in character, the American husband is to his wife and family "as the shadow of a great rock in a weary land."

Is he fully appreciated?

Advice to husbands is common enough. And the plaint of "unappreciated wives" is exploited by many writers. What of unappreciated husbands?

Some wives are so wholly swallowed up by their own grievances they can find no sympathy for a husband. They sigh over their "humble lot."

Dear Mrs. —:

I am not unkindly of your traits as mother and housekeeper. But—

If your husband is honest, industrious, clean minded, if he does his best, you have THE GREATEST GIFT THE GODS CAN GIVE.

The good husband gives himself without stint and freely. When the family bills are paid he has little to spend for himself. If the wife and kids are grateful and kind he does not mind the labor or the sacrifice.

But—

When he has done his utmost, if he goes without appreciation, if there is ingratitude—if, worse than all, there is the reproachful hint that he might have done better—then God pity that husband!

Your man, my dear woman, has the same soul stuff in him that is in you. He may be bigger, stronger physically, but his feelings are just as keen as yours.

Now—
He finds it an easy task to do and dare for those he loves—no, but if he misses their appreciation—like you—he misses all that life holds for him.

Madam—

If you have in your husband a pure and manly spirit who makes himself a shield against "the slings and arrows of outrageous fortune," bend your soul in thankfulness to God—and your husband!

Now—
He finds it an easy task to do and dare for those he loves—no, but if he misses their appreciation—like you—he misses all that life holds for him.

THROUGH CITY ON RELIABILITY RUN

AUTOS LEFT CHICAGO THIS MORNING AT 4 O'CLOCK FOR LONG RUN.

RANIER ARRIVED AT 9:16

ALL BUT FOUR OF NINETEEN ENTERED REACHED CITY BY 11 O'CLOCK—

TRAVELED 125-8-10 MILES.

At 9:16 this morning the first car in the reliability run reached Janesville, having left Chicago at 4:41. The car was a Runar, with J. G. Honest and M. Ingelhart as drivers, and E. E. Kirk as observer. It was a 46-horsepower 4-cylinder machine.

After the arrival of the first car the others followed in rapid succession until at 10:15 all but four had arrived.

The reliability tour of which today's run is the first will cover 1,000 miles and last four days.

Following is a list of the cars, the drivers and the time they reached Janesville up to 11 o'clock:

No. Car and driver. Time arrived.

Cars were allowed to take gasoline, water and lubricating oil here, which was one of the four checking places. They were penalized for any other repairs. Person's garage was the checking place here and the checking was done by Roy Person, Charles Fullman and Ed Erwin.

The confetti car, which strewed confetti along the road for the racers to follow, left Chicago an hour ahead of the other cars and the pilot car, which none of the others could pass, left the Windy City a half-hour ahead of the racers.

John DeLong, formerly of Janesville and who is now on the Chicago Tribune sporting staff, was with the Pierce Arrow car as press representative.

Tomorrow, Thursday and Friday the run will be continued. The course for these three days is laid out west, southwest and east of Chicago.

All the cars with one exception reached Janesville before noon and arrived and left within the time limit. The one exception was the Reliable Dayton, driven by C. L. Halladay. This is one of the higher-wheeled machines. The frame was smashed near Kenosha and the car came from there to Janesville in that condition. The machine is now laid up for repairs at Person's garage.

The Studebaker car (No. 17) came to grief after it had checked in and had started on the return trip. It broke down near the library building and investigation showed that the differential had been stripped. The passengers, G. W. Smithson and Bert Herrlein of South Bend, Ind., Charles Eisinger and George Teague of Chicago, are quartered at the Hotel Mayne and will have to remain there until a new part for the machine can be sent from Chicago. E. Q. Corther, Jr., the observer, went back on another car to report the mishap.

TRIED TO GET INTO WHOLESALE GROCERY

Thieves Broke a Rear Window at Early Hour This Morning But Were Frightened Away.

Sounds of crashing glass attracted the attention of Officers Mason and Morrisey as they were passing the Janesville Wholesale grocery, corner of High and Wall streets, about one o'clock this morning. Hustling to the rear of the building they found that a window had been broken in but no human beings were to be seen in that vicinity. A first ward resident, who happened to pass on his way homeward, informed the patrolmen that he had seen four men running across the tracks about the time the investigation had been started. The officers scoured the railroad yards but located no suspicious characters.

Manager Clouse, upon arriving at the store, could not find that anything of value had been taken, which seems to indicate that the prowlers took to their heels before their errand was accomplished.

Inquiries made at the wholesale grocery management today elicited a statement to the effect that little credence was given to the attempted burglary theory; that boys scuffling in the rear of the store were believed to have accidentally打破了 a window and to have scampered away immediately thereafter.

DOUBLE CAPACITY AT INDIAN FORD

Changes Being Made to Power Plant Up The River.

Somewhat substantial improvements are under way at the Indian Ford power plant. Advantage has been taken of the low water, which is now at the lowest stage in five years, to repair the dam, shutting up the leaks, rebuilding the bulkheads with cement and strengthening the dam in general. Mr. Norcross is installing another large water wheel and lowering both the intake and the tail race. He is also supplementing the plant with a 50 H. P. gas engine for use in case of emergency or high water, so that when everything is completed the plant will be able to develop nearly double the power of heretofore. The weather of the past month has been especially suitable for carrying out the improvements.

Subscription Paper is Being Circulated With an Idea of Finding the Sentiment of the Business Men and Farmers.

Actual work towards a genuine old fashioned fair has been started in earnest and J. A. W. Van Kirk is now passing a paper for stock subscriptions at fifty dollars per share. The idea is to raise ten thousand dollars and the subscription is made conditional upon this fact.

This is the outgrowth of the meeting held last winter at which it was decided to hold a fair in Janesville and Charles Purman and A. E. Bingham were named as chairman and secretary of the preliminary organization.

Just at that time it was not thought best to press the matter and now the question has been taken up again and will be thoroughly worked out, every one being given an opportunity to subscribe to the stock.

DYNAMITE IN A SCHOOL.

Evidence of Attempt to Blow Up Building in New York.

New York, Oct. 6.—Parents of children who attend public school No. 6, the largest institution of its kind in the Bronx, were greatly excited Monday when a report was given wide circulation that the janitor of the building had found a charge of dynamite, with fusing wires attached, in a crevice of the foundation walls of the building. About 1,500 children attend this school. The janitor, it was said, discovered on last Friday the evidence of what was believed to be an attempt to blow up the school building. Since then the police have been working in an effort to find the person responsible for the supposed plot and an officer constantly has patrolled the street in front of the school.

The Future of Cooking.

Women of the next generation will regard cooking as a chemical process, certain fixed laws governing it, and there will be less attention paid to the recipe and luck will have nothing to do with it. It is to be hoped the results will be as good as those of our grandmothers, who put in a pinch of salt, and believed in the luck of the oven above everything else.

THINK DR. COOK IS LOST

FRIENDS OF EXPLORER SEEK A RELIEF EXPEDITION.

Started to Find the Pole—Planned to Traverse Unknown Tract—Task Believed to Be Impossible.

New York, Oct. 6.—Is Dr. Frederick A. Cook, the well-known Brooklyn explorer and the conqueror of lofty Mount McKinley, lost in the arctic? This question is so disturbing the friends of the venturesome Brooklyn physician in that borough that they are seeking his financial backer, John R. Bradley, to get him to fit out an expedition to search for him in the arctic.

Dr. Cook started about a year ago in a daring attempt to reach the north pole. The last heard of him since he left the last point of ordinary communication was on May 7, when an Eskimo who had accompanied him into the ice-bound wilds returned to a point south with a letter from the doctor stating that he had reached Cape Hubbard, Western Ellesmere Land. This point is about 500 miles from the pole and at the time he was preparing to push northward.

It appears from what his friends in Brooklyn have learned about the plans of Dr. Cook that he has set for himself what they view as an impossible task. Mr. Bradley accompanied Cook into the north on a hunt for polar bear and walrus. Cook left Bradley at a point in western Greenland, intending to cross Smith's sound, Ellesmere Land and the trackless region beyond in an effort to reach the pole. It was his plan to return by the same route and then cross over an unexplored stretch of central Greenland and reach the Danish settlements on the coast.

Taylorville Pastor Advertises to Do Handcuff Act Before Sermon.

Springfield, Ill., Oct. 6.—Rev. Charles E. Campbell, pastor of the Presbyterian church at Taylorville, has decided to add vaudeville to his Sunday evening service in the hope of drawing a larger attendance. In the local newspaper Monday he announced that on next Sunday evening before the sermon the pastor would perform the famous handcuff act. With a heavy steel chain he will allow any one in the audience to bind both wrists and fasten the chain securely with a padlock, and he promises to release himself in ten minutes. Permission is given the audience to examine the chain and to furnish the padlock if so desired.

Excessive Drinking

Orrine Destroys the Craving for Drink. Cure Ejected or Money Refunded.

Excessive or continued use of alcohol beverages always results in a diseased condition of the nervous system.

The drinking man is often heard to say, "I can stop off my own free will and when I wish," but the poor fellow has now devoid of the power to act at the proper time and in the right way.

—It's too late, the craving has seized a firm hold and because of the diseased nervous system he has not the ability for sustained effort. The result we all know.

Drunkenness is no longer considered a crime, eminent scientists and physicians have agreed that it is a disease and must be treated as such.

The home treatment that has been used for number of years, and is highly successful, is Orrine. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded.

Orrine is in two forms. When desiring to give secretly, purchase Orrine No. 1, and if the patient will voluntarily take the treatment, Orrine No. 2 should be given. The guarantee is the same in either case. Orrine costs but \$1.00 per box. Mailed in plain sealed wrapper on receipt of order. Write for free treatise on "Drunklessness" mailed in sealed envelope by The Orrine Co., Washington, D. C., and in this city by People's Drug Co. and King's Pharmacy.

"Hickey!" demanded Maltland, and, in a tone of smoldering wrath, "what the—what do you want?"

"Yoh told me tuh call round to-morrow, yoh know. When'll yoh be in?"

"I'll leave a note for you with O'Hagan. Is that all?"

"Yop—that is, there's somethin' else . . ."

"Well?"

"Excuse me for mentionin' it, but I didn't know—it ain't generally known, yoh know, 'nd one uh th' boys might've heard me speak tuh yuh lady by name 'nd might pass it on to a reporter. What I meant's this," he said, as the Maltland temper showed dangerous indications of going into active eruption. "I s'pose yoh don't want me tuh mention 't yah, you're married, jes' yet? Mrs. Maltland here," with a nod to her, "didn't seem tuh take kindly tuh the notion of it's bein' known—"

"Hickey?"

"Ah, excuse me!"

"Drive on, cabby—instantly! Do you hear?"

Hickey backed suddenly away and the cab sprang into motion; while

"Please," She Said Gently—"Please Tell the Cabby to Take Me Home, Mr. Maltland."

Maltland with a face of fire sat back and raged and wondered.

Across Broadway toward Fourth avenue dashed the hansom; and from the curb-line Hickey watched it with a humorous light in his dull eyes. Indeed, the detective seemed in extraordinary conceit with himself. He chewed with unaccustomed emotion upon his cold cigar, scratched his cheek, and chuckled; and, chuckling, pulled his hat well down over brows, thrust both hands into his trouser pockets, and stumbled back to the St. Luke building—his body vibrating amazingly with his secret mirth.

And so, shuffling, sluggishly, he merges into the shadows, into the mob that surges about the building, and passes from those pages.

Two Americans Believed to Have Drowned During Typhoon.

Washington, Oct. 6.—Charles H. Webster and Benjamin Franklin Rush, according to a dispatch received in the war department Monday, left Pilar Sorsogon, Phillipine Islands, in an open boat, September 24, two hours in advance of the typhoon which then prevailed, and it is believed they are lost. Vigorous search is being instituted. The authorities are asked to notify Charles P. Webster of Austin Hills, Cincinnati, and C. W. Rush of 2025 South street, Lincoln, Neb.

DOES NOT INTEND TO MAKE SPEECHES

PRESIDENT DENIES REVIVED TALE OF STUMPING TRIP.

BRYAN FAVORS PENSIONS

Says He Never Opposed Them in Speech or Editorial — Taft Talks in Kansas and Missouri.

Washington, Oct. 6.—"President Roosevelt at present has no intention of taking the stump in behalf of Taft," is the way in which persistent reporters to the effect that he was to make a speaking tour in favor of the candidacy of the Republican nominee are now denied at the White House.

The latest story on this subject is that received at Lincoln, Neb., Sunday by Mr. Bryan that the president intended taking the stump and was planning to make at least six speeches on a tour across the country, terminating at San Francisco.

Reports Flatly Denied.

Numerous times during the president's summer vacation similar reports were flatly denied by the president's secretary or by the president's secretary.

On his return to Washington these reports have become more numerous, and each has been denied at the White House.

When the matter first came up the denials of the president's secretary were unequivocal, but to the latest reports he had given somewhat qualified denials, always saying that it is the president's present intention not to take the stump.

Bryan Denies Pension Tale.

Fairview, Lincoln, Neb., Oct. 6.—In an interview given out late Monday by William J. Bryan, his denials, as has been alleged, that he ever made a speech or wrote an editorial against the granting of pensions to soldiers.

On the contrary, he declares that all of his platforms have endorsed pensions and that he favors a liberal pension policy.

Bryan at Havelock, Neb.

Havelock, Neb., Oct. 6.—William J. Bryan was received here Monday night in a delirium of enthusiasm. His arrival from Lincoln shortly before nine o'clock in a special trolley car, accompanied by 100 members of the Lincoln Home Guards, was the signal for the great demonstration. The carriage in which he rode to the city park, where he spoke to a large audience composed mostly of workers in the railroad shops, ran a gauntlet of red fire and roman candles, while the throngs on the sidewalks vociferously cheered him.

Taft in Kansas and Missouri.

Macon, Mo., Oct. 6.—Judge William H. Taft made three speeches in Kansas and 13 in Missouri Monday. Eight of the stops in the "show me state" were arranged upon urgent demands from towns through which the special was to have passed without stopping.

Thus, instead of delaying the train more than an hour and the big audience at this place had to wait until nearly ten o'clock for the appearance of the candidate.

Mr. Taft's reception has been such as to cause him to express surprise and gratification, not only as to the number of people he has been able to address, but also to their cordial indication of friendliness.

Mr. Taft will make a speech Tuesday in St. Louis and in the evening will appear for a few moments at the Fox hall, a part of the carnival held there.

AUTOS ON THE WRONG SIDE OF THE ROADS

Violations of Highway Ethics and Speed Limit in Janesville May Lead to Arrests.

That the pedestrian's chances are greatly lessened when automobile drivers fail to observe the universal law of the road and keep their machine on the right side, as determined by direction, was made evident yesterday when an elderly gentleman was nearly run down by a car that was whizzing along on the left side of the highway. He was looking in the direction from which vehicles were naturally to be expected when the one in question, indeed striking him by a lad's breadth. Upon hearing his complaint at the police station, Chief Apelby assured him that steps would be taken to put a stop to this sort of practice. "We are receiving many complaints regarding the violation of the speed limit and this careless habit of running on the wrong side of the road," said the head of the department this morning, "and unless the drivers are more careful, some of them will be arrested and taken into inquest court."

USED CHURCH AS SCHOOLROOM

Proceedings That Somewhat Astonished the Sexton.

The sexton of one church that keeps open doors all day long didn't know whether to regard the matter in the light of a dereliction or a devotional exercise. He paid no attention when the three women, watched by a man who stood at the lower end of the aisle, walked the length of the church, and back again. Even when they made the trip a second time he scarcely gave them a thought, but when the trio started around the church a third time and the man called out, "Stop a little more briskly, please," he began to wonder, and presently made inquiry.

"I hope you won't be offended," the man replied. "I am a physical culture instructor. I am teaching these young ladies to walk. I have already taught them to walk in the street, in the drawing room, in the theater and every place else they are likely to find themselves. I am now teaching them to walk in church. Very few women can walk there properly. Some lop, some swing, some skip, others adopt a mincing gait. All these styles are very inappropriate for church. A dignified, subdued gait alone is suitable for devotional purposes. Church is the best place for pupils in walking to receive practical instruction, therefore I have brought them here."

"Great fathers!" gasped the sexton.

"What next?" But he said no more till the walking exercise was ended. Then he followed the class to the door. "I hope," he said, "you will practice the lesson learned to-day by coming here to church once in a while."

REFUSED TO GIVE TESTIMONY

Youngster's Attitude Put Mother in Something of a Dilemma.

On Frank's fifth birthday his mother told him solemnly that henceforward he must be a man. He must be kind and gentle, and, above all, must be perfectly truthful, etc. A few days later on entering the children's playroom she caught her younger son, Robert, in the act of striking Frank a blow in the face.

"Why do you strike Frank, Robert?"

"The mother asked.

"He hit me first," answered Robert hotly.

"Did you, Frank?" she inquired.

"No, I didn't," asserted Frank.

"Be here, Frank," said she sorrowfully, "don't you remember what I told you—now you are five years old—that you must be a man, and must never tell a lie—tell me—did you strike him? Now remember, the Lord sees and hears everything you do and say."

"Does He know?" interrupted Frank, "whether I struck Robert or not, mother?"

"Yes, my son, He knows."

"Well, you just ask the Lord if I did, will you?"

LIE DISCREETLY ABOUT YOUR AGE.

I know a young woman who told me she was 25 years old, although I had never spoken about her age. A quarter of a century ago I witnessed a lynching. I happened to refer to it once in talking to this young woman, and she immediately became excited. She knew all about that lynching, she said, and had with other schoolchildren seen the mob rushing through the streets. I said that the lynching occurred in 1882, and the young woman colored a little, became thoughtful and then slightly hysterical. If a man tells you he is 40 years old and then, to illustrate the patriotism of his family and himself, tells how he helped drape their home in black the day after Lincoln's death, you can afford to smile at him. If you are calling yourself younger than you really are, be careful not to give yourself away.

A STEEL GRAY MAN.

A stern visaged man, with his steel-gray whiskers cut to make him look like a captain of industry, was walking briskly down Superior avenue recently past the city hall. Near the entrance he saw a little dead sparrow that had fallen to the sidewalk. He paused and picked up the dead bird. "Maken me think of when I was a kid," he muttered. "We always used to have a regular funeral and bury 'em when they died. Well, I'll put it over here where it won't be all ground to pieces by people walking by, anyway." He placed the feathered little body on a ledge of the building and then hurried on down street.—Cleveland Plain Dealer.

MENDING RUBBERS.

We have found that thin spots in our rubbers can be mended at home by applying a cement made from five cents worth of real rubber dissolved in chloroform. Keep the bottle containing the cement tightly corked and apply with a mincing brush as quickly as possible that it may not harden. We used rubber darn for an actual hole. Cut a piece of the rubber the right size, fasten it with a few stitches over the hole, and brush with the cement. Both kinds of rubber may be obtained from a dealer in dentists' supplies.—Harper's Bazaar.

EMERALDS.

At the present day most of the emeralds that come into the market are obtained from the famous mines of Muzo, in the Columbian province of Bayaca. These workings are situated on the eastern slope of the Andes, about 70 miles to the north-northwest of the town of Santa Fe de Bogota. There is another mine, called Lusquies, two days' journey by muleback from Muzo.

"Hunter's Tussle with a Deer." James Snook of this city had an exciting experience with a buck deer at Oceola, in Marin county, recently. Snook was out hunting alone and sighting the animal fired two shots. The deer fell, and thinking it was dead, Snook ran up to his prize. To his surprise the apparently dead animal jumped up and rushed at him viciously.

Before he could protect himself Snook was knocked down and trampled into insensibility. He finally recovered and upon staggering to his feet, discovered the deer lying dead not more than 200 yards away.

Snook sustained a fracture of two ribs by being struck by the deer's horns when he was first thrown to the ground. In addition he was considerably bruised by the animal's hoofs.—San Francisco Chronicle.

Fiddle Church Vane. One of the most curious vanes to be seen on any church in Great Britain is at Great Gonerby, a parish adjoining Grantham.

It is in the form of a fiddle and a bow and is unusually large. Its history is curious. Many years ago a peasant resided in Great Gonerby who earned out modest livelihood by performing on an old violin which was almost a part of his life. At last he decided to emigrate, and out in the far west prospered and became a rich man.

One day he sent to the clergyman at Great Gonerby a sum sufficient to build a church, and attached to the gift the curious condition that a metal replica of his old fiddle and bow should be on the summit of the edifice. The gift was accepted and the vane may still be seen on the church.
